

Group 1 – Sprint Planning 5 Report

Sprint goal

- Make localization for the user interface
- Prepare database for localization
- Develop ability to change languages in app

Sprint Duration

- 2 Weeks

Planned Tasks

1. Preparing User Interface Localization

- Identify all static text on website and translate it
- Change all body text on website to variables
- Implement language selection in UI

2. GUI Localization

- Localize the GUI to support russian and japanese in addition to english
- Verify UI elements update according to selected language

Sprint Success Measurement

- **Task Completion:** Ensure Jira tasks are categorized correctly (To Do, In Progress, Done)
- **Sprint Backlog Status:** Track progress of user stories (Completed, In-progress, Postponed)

SCRUM Sprint 5: 5 Dec - 19 Dec (25 work items)			0	25	0	Complete sprint	...
SCRUM-80	Librarian dashboard page loc	IN PROGRESS					
SCRUM-76	Create ui for choosing language	IN PROGRESS					
SCRUM-94	As a user I want to read dates on the page in my native format	IN PROGRESS					
SCRUM-91	notification loc	IN PROGRESS					
SCRUM-90	private page loc	IN PROGRESS					
SCRUM-89	book page loc	IN PROGRESS					
SCRUM-88	edit book page loc	IN PROGRESS					
SCRUM-85	sign up loc	IN PROGRESS					
SCRUM-81	Customer dashboard page loc	IN PROGRESS					
6694uM-79	home page loc	DONE					
6694uM-83	footer loc	DONE					
6694uM-89	nav bar loc	DONE					
6694uM-78	Localization react-18next library implementation	DONE
